ORAMASKÁ@ 811 is a movie of rough paint to paint or spray on surfaces even available in opaque white. The relationship between the liberation lining and the vinyl is different for Vinyl manufacturer. Observe the à ostile instructions contained in the technical data sheet available for each product. Are there specific color profiles that should be used with OREJETÁ@ materials? If, ensure the correct media profile for your work, depending on your specific combination. of media software, ink, printer and RIP. It is highly satisfied and comes in transparent gray. Please note the following considerations: 24 hours of dry time (outgas) should be considered the minimum before applying lamination. There could be a couple of things happening with this situation. The use of third -party inks and genic color profiles can lead to poor impression quality and requires more time to dry (outgas). Direct sunlight, storage next to radiators, etc. ORASKÁ@ 810 is a template movie as it is à Etil to spray and paint on unequal surfaces. If it is so, what is some of them translid? SÁ, Orafol Americas offers 4 different template mismans ... ORASKÁ@ 810, 810s, 811 and 813. If the part of the silicone layer of the launch coating is penetrated by the blade of the trazon that can cause The adhesive to migrate to the cut line. They also provide an excellent protection against the exposure in ink to UV rays. How can I get more information about product and performance combinations? Get in touch with the product support specialist of Orafol's friendlies to discuss the combinations of appropriate products and substrate compatibility for their specific work. If the traced graphics are not eliminated by the production of the production, the adhesive can flow towards the cutting line, which makes the grass difficult. I want to know if orafol movies contain E_jido because I want to use vinyl for my cuts of cuts. No, the They do not do it. contain. When you try different pressure and speed configurations, seek how much are the graceful weeds, making sure not to cut too much.
